VINTAGE SPEEDSTERS

Vintage Motorcar LTD. Photography by Ignite Creative Services

A new beginning..

Hello Speedster world! What an honor it is to be a part of such a unique industry. We are very excited to get more involved in the community and to learn what we can from all of you helpful folks! Now, on a more serious note. We know there has been quite a lot of confusion swirling around some threads on what exactly is happening to Vintage Speedsters. As some of you may or may not know, Justin Davison purchased Vintage Speedsters from Kirk Duncan about a year ago and

and Youtube.

We moved to beautiful Scottsdale, Arizona in January of 2018. Things have been very chaotic. It turns out, moving an automotive shop is no project for the weak hearted! We have finally gotten settled and we now have time to do some of the more enjoyable things for work like marketing and participating on the online Speedster Community. And what a community it is! We are very excited to soak up all of the knowledge everyone has to offer and give back by producing a quality car that demonstrates our passion for the Speedster Lifestyle. Because after all, that's what it is! Thank you to all who have welcomed us with open arms and we can not wait to give back to the industry.

What have we been up to?

Since our move back in January, we have been quite busy! But that doesn't mean that we haven't made time for a few improvements to the Speedster. Below is a list of just the few changes that you may notice when looking at one of our newer cars.

We are well aware there was a number of small issues. Whether it was loose hubcaps or faulty tachometers, rest assured that Vintage Speedsters has taken the time to resolve these issues and will continue to make improvements to our cars!

-  Four wheel disc brakes are now stock
-  All chassis are powder coated
-  Brand new engine blocks
-  We have put in great attention to detail to ensure the cockpit of the car is as authentic and original as possible
-  All paint jobs are now base coat and clear coat for a higher quality finish

RE:DEFINE RE:CREATION

OUR MISSION

It is the Vintage Motorcar mission to bring new and exciting experiences to the domestic and international car communities.

We aim to provide an affordable and fun alternative to the standard options of choosing between a new sports car (built to your specifications) or a vintage car, by offering a custom-built, classic-styled Speedster.

Arizona Welcomes Vintage Speedsters.

-Centrally located in Scottsdale Airpark, we are very Excited about our new shop!

As some of you may know, Scottsdale has quite a thriving Automotive industry. With multiple car shows like Barrett Jackson and Russo and Steele, We believe our new location will give the Speedster the deserved exposure and enable us to deliver the highest quality of cars in to the market.

Justin Davison, the Arizona Native

Born and raised right here in Arizona, Justin Davison started in the Car Industry when he was just 16 years old. He has worked for high profile car manufacturers as well as the largest new car dealership in the world. With his extensive background and knowledge of the automotive world, He plans to bring many new and exciting things in to the wonderful world of Speedsters!

MEET THE TEAM-Vintage Speedsters

MEET OUR TEAM

We are absolutely thrilled to welcome aboard our new team! When your favorite past time is wrenchin' on cars, none of us dread Mondays! Although we are new to the Speedster World, We all come from the Automotive Industry. We hope that our adoration and love for these cars is demonstrated in the quality of craftsmanship of every single Speedster that leaves our doors.

The Vintage Speedsters Family

Juan: Juan is our resident dealership mechanic. He joined our team in late March and has been a major asset ever since. When Juan isn't working you can find him working at the family food truck *Taco Juans!*

Jack: Jack is the newest member of our team and he is also the baby of the shop! A recent graduate of MMI, We couldn't be happier that Jack has decided that four wheels are better than two.

Ron: Ron is our veteran mechanic as well as Lead Project Manager. With over 30 years of experience in the automotive industry, We sure don't know what we would do without him! You can often times hear him reminding some of the Youngbloods out back that "I aint' sayin' I'm the best, but you won't find none better." And to be honest, no truer words were ever spoken.. Well, maybe a few, but not many.

David: Just behind Ron, David has been with us since our move in January when he took on the role of Team Lead. David was born and raised around cars! Whether he was Professionally racing off road trucks or working in the Family shop, David definitely has wisdom beyond his years.

Christian: Christian has lent a helping hand in the success of getting our new shop up and running. Once Christian has put in a full day at a custom fabrication shop, he heads over to help us in our after-hours!

Left to right: Juan, Jack, Ron, David, Christian
